INTRODUCTION

In the previous report of this series, (see Bulletin No. 1-11), the population of Canada was shown according to the number of persons of each sex reported as single, married, widowed or divorced at the date of the census. The tables of this report provide more detailed information on the subject of marital status to show the population in each of these marital status and sex classes according to various age groups.

Table 28 shows this information for Canada by rural farm, non-farm and urban, according to five-year age groups. In the more detailed tables for provinces, cities of 30,000 population and over, etc., (Tables 29-31), broader age classes are used. Totals shown under the heading "married" in all tables include married persons who at the time of the census were living apart for any reason. The age classifications are based on a definition which specifies completed years of age at last birthday prior to the census date of June 1, 1956.

The following statement shows the numerical and percentage distribution of the population of Canada in 1956 by marital status, age groups and sex.

INTRODUCTION

Le rapport précédent de la présente série (voir Bulletin n° 1-11) présentait la population du Canada selon le nombre de personnes de chaque sexe déclarées célibataires, mariées, veuves ou divorcées à la date du recensement. Les tableaux du présent rapport fournissent de plus amples renseignements sur l'état matrimonial, en répartissant, selon divers groupes d'âge, la population de chacun de ces classements suivant l'état matrimonial et le sexe.

Le tableau 28 répartit selon des groupes quinquennaux d'âge la population rurale agricole, rurale non agricole, et urbaine du Canada. La répartition se fait selon des groupes d'âge plus grands dans les tableaux plus détaillés par province, par ville de 30,000 habitants et plus, etc., (tableaux 29 à 31). Sur tous les tableaux, les chiffres de la colonne des "mariés" englobent même les personnes mariées qui, pour une raison quelconque, vivaient séparées lors du recensement. Les classements par âge se fondent, par définition, sur l'âge révolu au dernier anniversaire antérieur au 1^{er} juin 1956, date du recensement.

Le relevé ci-dessous présente la répartition numérique et pourcentuelle de la population du Canada en 1956 selon l'état matrimonial, les groupes d'âge et le sexe.

Additional tables provide data on certain aspects of farm expenditures and farm labour.

Rapports analytiques

Une troisième série de rapports sur le recensement de 1956 (Rapports 3-1, 3-2, etc.), contiendra des analyses de la statistique pour les deux séries précédentes. Les sujets observés seront: l'accroissement de la population, la répartition rurale et urbaine, la composition par âge, l'état matrimonial, les ménages et les familles, et l'agriculture.

Results of the 1956 Census on Population and Agriculture are being issued as a series of reports, rather than as bound volumes. The reports are prepared so that by removal of the covers the tables can, if desired, be placed in loose-leaf binders or bound in volume form. In the latter case, Reports No. 1-1 to 1-21 would form the first volume, and Reports No. 2-1 to 2-11, the second. Introductory signatures and appendices will be issued on request to subscribers of the full series of population reports to complete the materials of this volume.

Les résultats du recensement de la population et de l'agriculture de 1956 sont publiés dans une série de rapports plutôt qu'en volumes reliés. Les rapports sont préparés de façon que, si on le désire, on puisse, en enlevant la couverture, placer les tableaux dans des relieurs à feuilles mobiles ou les relier en volumes. Dans ce dernier cas, les rapports 1-1 à 1-21 formeraient le premier volume et les rapports 2-1 à 2-11, le second. Une introduction et des appendices seront envoyés sur demande aux personnes qui s'abonneront à la série complète des rapports sur la population, ce qui complètera la matière de ce volume.
